FILING RECEIPT

OC000000020613388

Date Mailed: 10/03/2006

Receipt is acknowledged of this regular Patent Application. It will be considered in its order and you will be notified as to the results of the examination. Be sure to provide the U.S. APPLICATION NUMBER, FILING DATE, NAME OF APPLICANT, and TITLE OF INVENTION when inquiring about this application. Fees transmitted by check or draft are subject to collection. Please verify the accuracy of the data presented on this receipt. **If an error is noted on this Filing Receipt, please mail to the Commissioner for Patents P.O. Box 1450 Alexandria Va 22313-1450. Please provide a copy of this Filing Receipt with the changes noted thereon. If you received a "Notice to File Missing Parts" for this application, please submit any corrections to this Filing Receipt with your reply to the Notice. When the USPTO processes the reply to the Notice, the USPTO will generate another Filing Receipt incorporating the requested corrections (if appropriate).**

Applicant(s)

Richard Rudolf Theodoor Van Den Brink, Den Haag, NETHERLANDS;

Assignment For Published Patent Application

Global Factories B.V., Den Haag, NETHERLANDS

Power of Attorney: The patent practitioners associated with Customer Number **23373**.

Domestic Priority data as claimed by applicant

This application is a 371 of PCT/NL04/00583 08/19/2004

Non-Publication Request: No

Early Publication Request: No

Title

Method and device for inspecting a string of drugs

Preliminary Class

206

PROTECTING YOUR INVENTION OUTSIDE THE UNITED STATES

Since the rights granted by a U.S. patent extend only throughout the territory of the United States and have no effect in a foreign country, an inventor who wishes patent protection in another country must apply for a patent in a specific country or in regional patent offices. Applicants may wish to consider the filing of an international application under the Patent Cooperation Treaty (PCT). An international (PCT) application generally has the same effect as a regular national patent application in each PCT-member country. The PCT process **simplifies** the filing of patent applications on the same invention in member countries, but **does not result** in a grant of "an international patent" and does not eliminate the need of applicants to file additional documents and fees in countries where patent protection is desired.

Almost every country has its own patent law, and a person desiring a patent in a particular country must make an application for patent in that country in accordance with its particular laws. Since the laws of many countries differ in various respects from the patent law of the United States, applicants are advised to seek guidance from specific foreign countries to ensure that patent rights are not lost prematurely.

Applicants also are advised that in the case of inventions made in the United States, the Director of the USPTO must issue a license before applicants can apply for a patent in a foreign country. The filing of a U.S. patent application serves as a request for a foreign filing license. The application's filing receipt contains further information and guidance as to the status of applicant's license for foreign filing.

Applicants may wish to consult the USPTO booklet, "General Information Concerning Patents" (specifically, the section entitled "Treaties and Foreign Patents") for more information on timeframes and deadlines for filing foreign patent applications. The guide is available either by contacting the USPTO Contact Center at 800-786-9199, or it can be viewed on the USPTO website at <http://www.uspto.gov/web/offices/pac/doc/general/index.html>.

For information on preventing theft of your intellectual property (patents, trademarks and copyrights), you may wish to consult the U.S. Government website, <http://www.stopfakes.gov>. Part of a Department of Commerce initiative, this website includes self-help "toolkits" giving innovators guidance on how to protect intellectual property in specific countries such as China, Korea and Mexico. For questions regarding patent enforcement issues, applicants may call the U.S. Government hotline at 1-866-999-HALT (1-866-999-4158).

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Bureau of Industry and Security, Department of Commerce (15 CFR parts 730-774); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

Alexandria, VA 22313-1450

Sir:

Prior to examination, please amend the above-identified application as follows on the accompanying pages.

TABLE OF CONTENTS

AMENDMENTS TO THE CLAIMS	2
REMARKS	9

AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions and listings of claims in the application:

LISTING OF CLAIMS:

Claim 1 (currently amended): ~~Method~~ A method for inspecting a group of drugs, comprising:

- the infeed of patient and drug data;
- conveying said drugs past a camera;
- optical scanning said drugs by a camera;
- comparing said scanned drugs with said infeed;
- accepting or rejecting said drugs;
- storing data relating to said drugs in a memory; and
- inspecting several groups of drugs,

~~characterized in that several groups of drugs are inspected,~~ wherein each group is provided in a pack and a number of packs is connected to provide a string, wherein each string is provided with patient data, said camera inspecting said packs and the group of drugs therein, wherein the scanned image of the patient data and packs having the group of drugs therein, is entered in said memory.

Claim 2 (currently amended): ~~Method~~ The method according to Claim 1, ~~in which~~ wherein said drug scan comprises the number of drugs.

Claim 3 (currently amended): ~~Method~~ The method according to ~~one of the~~
~~preceding claims~~ claim 1, wherein, ~~in which~~ said drug scans comprise the shape and/or colour of
said drugs.

Claim 4 (currently amended): ~~Method~~ The method according to ~~one of the~~
~~preceding claims~~ claim 1, wherein both the number of drugs and the shape thereof are used for
comparing.

Claim 5 (currently amended): ~~Method~~ The method according to ~~one of the~~
~~preceding claims~~ claim 1, wherein, ~~in which~~ said acceptance/ rejection comprises the application
of a colour marking.

Claim 6 (currently amended): ~~Method~~ The method according to ~~one of the~~
~~preceding claims~~ claim 1 wherein, ~~in which~~ said patient data are provided on each pack.

Claim 7 (currently amended): ~~Method~~ The method according to ~~one of the~~
~~preceding claims~~ claim 1, wherein, ~~in which~~ before the scanning of said drugs they are subjected
to a treatment for spreading them out.

Claim 8 (currently amended): ~~Method~~ The method according to claim 7, wherein
said treatment comprises applying vibration ~~comprising vibrating~~.

Claim 9 (currently amended): ~~Method~~ The method according to claim 7 ~~or 8~~,
wherein said treatment comprises, comprising moving with a brush over said pack.

Claim 10 (currently amended): ~~Method~~ The method according to ~~one of claims 7-~~
~~9~~ claim 7, further comprising the step of, comprising exerting a displacing engagement from
above on said drugs, comprising an annular movement in a plane essentially parallel with a
carrier on which the drugs are placed.

Claim 11 (currently amended): ~~Method~~ The method according to claim 10, wherein
said step of exerting a displacing engagement comprises exerting ~~comprising~~ resilient
engagement in a direction at right angles to said carrier.

Claim 12 (currently amended): ~~Method~~ The method according to claim ~~10 or 11~~ 10
wherein, in which said annular movement comprises a circular movement.

Claim 13 (currently amended): ~~Method~~ The method according to claim 12,
wherein ~~in which~~ the central axis of rotation is essentially at right angles to said carrier.

Preliminary Amendment
Based Upon PCT/NL2004/000584
SUGHRUE MION, PLLC Ref: Q93287

Claim 14 (currently amended): ~~Method~~ The method according to ~~one of the~~
~~preceding claims~~ claim 13, wherein, in which said objects are displaced during spreading in the
plane of said carrier.

Claim 15 (currently amended): ~~Device~~ A device for inspecting a string (10) of
interconnected drug packs (15), comprising:
an infeed (6) for a string of packs (15);
conveyance means (4) for said packs;
a camera (2) for scanning the drugs in said packs;
a discharge (7) for said string of packs; ~~and also~~
an input (19) for patient/drug data; ~~in addition to~~
a comparison device (3) for comparing said patient/drug data with said camera scans;
~~characterized in that~~
scanning means ~~are present for scanning of said patient data; and, and also~~
storage means (3, 5, 8) for storing said patient scans and said drug scans.

Claim 16.(currently amended): ~~Device~~ The device according to claim 15, wherein
~~which~~ said conveyance means comprise a circulating belt with infeed (6) and discharge (7)
provided near each other.

Preliminary Amendment
Based Upon PCT/NL2004/000584
SUGHRUE MION, PLLC Ref: Q93287

Claim 17 (currently amended): ~~Device~~ The device according to ~~one of claims 15 or~~
~~16~~ claim 15, wherein, ~~in which~~ said scanning means comprise said camera (2) and also means
(16) for storing its scan in a mirror image.

Claim 18 (currently amended): ~~Device~~ The device according to ~~one of claims claim~~
~~15-17, in which~~ wherein said camera comprises a first light source (16) for determining the
patient data and the number of drugs, and a second light source (24) for determining the colour
and/or shape of said drug scans.

Claim 19 (currently amended): ~~Device~~ The device according to ~~one of the claims~~
claim 15-18, further comprising means for spreading drugs lying next to/on top of one another,
comprising a carrier (42) for said drugs, as well as a spreading device (41) disposed above said
carrier and engaging on said objects, said spreading device comprising a cam-shaped part (46),
which in the unloaded state is disposed directly above said carrier with clearance (a) and is
designed in such a manner that it is fastened to a drive (52) in order to allow said cam-shaped
part to follow a continuous path lying in a plane parallel to and above said carrier.

Claim 20 (currently amended): ~~Device~~ The device according to claim 19, wherein
~~which~~ said means comprise two spreading devices arranged next to one another.

Preliminary Amendment
Based Upon PCT/NL2004/000584
SUGHRUE MION, PLLC Ref: Q93287

Claim 21 (currently amended): ~~Device~~ The device according to claim 19 ~~or 20~~,
wherein ~~in which~~ said cam-shaped part is resiliently displaceable in a direction at right angles to
said carrier.

Claim 22 (currently amended): ~~Device~~ The device according to ~~one of claims claim~~
19-21, ~~in which~~ wherein said drive comprises a rotating motor (52) provided with an arm (48)
which is at right angles to the direction of rotation and connected to the rotation shaft and on
which said cam-shaped part is arranged.

Claim 23 (currently amended): ~~Device~~ The device according to ~~one of claims claim~~
19-22, wherein ~~in which~~ said drive comprises a rotating motor, a transmission (51) connected to
the rotation shaft thereof and an auxiliary arm (54) which is driven by said transmission and
extends essentially at right angles to said carrier and is fitted with said arm (48) on which the
said cam parts (46) are arranged.

Claim 24 (currently amended): ~~Device~~ The device according to ~~one of claims claim~~
19-23, wherein ~~in which~~ said cam-shaped parts (46) are arranged on an arm (48), said arm being
rotatable about a first central axis of rotation (53), said arm being arranged on an auxiliary arm
(54), said auxiliary arm being rotatable about a second central axis of rotation (55), said first and
second central axes of rotation being at a distance from each other and running parallel to each
other.

Preliminary Amendment
Based Upon PCT/NL2004/000584
SUGHRUE MION, PLLC Ref: Q93287

Claim 25 (currently amended): ~~Device~~ The device according to claim 24, wherein
~~which~~ two arms with cam-shaped parts are arranged on said auxiliary arms.

Preliminary Amendment
Based Upon PCT/NL2004/000584
SUGHRUE MION, PLLC Ref: Q93287

REMARKS

Applicants have amended the claims to correct grammatical errors and to eliminate the multiple dependencies. It is respectfully submitted that no new matter has been added. Entry and consideration of this Amendment are respectfully requested.
